DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Tuesday, 11 October 2022 at 01:48 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels should be Low across much of the UK in breezy and unsettled conditions. However, isolated Moderate levels are perhaps possible in the south, given less dispersive light winds here.

Tomorrow: Air pollution levels should be Low across the UK.

Outlook: Changeable and often windy conditions should mean that Low air pollution levels predominate for all parts of the UK in this three-day period.
